 or you may send a fax to: 916-446-1063

# Food Bioterrorism Regulation Workshop

Sponsored by

California Department of Food and Agriculture  
California Grain and Feed Association  
National Grain and Feed Association

California Department of Food and Agriculture  
Safe Animal Feed Education Program  
1220 N Street  
Sacramento, CA 95814-5607

## Safe Animal Feed Education Program (SAFE)

The SAFE program was designed to assist the Commercial Feed Program in ensuring a clean and wholesome supply of meat, milk, and eggs by educating both regulated industry and consumer-buyers of commercial feed on feed safety issues. In an effort to prevent manufacturing errors and the adulteration of feed, the SAFE program conducts voluntary feed quality assurance inspections of feed manufacturing facilities.

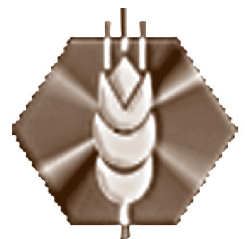

## California Grain & Feed Association (CGFA)

In 2002/2003, CGFA adopted a risk management initiative that includes an industry emphasis on providing safe and wholesome feed. CGFA is a committed partner with CDFA in developing and implementing a strong educational program and information network for industry's use.

*This workshop is a joint effort by the California Department of Food and Agriculture's Safe Animal Feed Education (SAFE) Program, the California Grain and Feed Association, and the National Grain and Feed Association to provide information on FDA food bioterrorism regulations.*
